The league will award cash prizes to each player of the top regular season team and the winning playoff team (*based on 8 teams)

The cash award for each player of a winning team will be calculated as:
2 x the number of regular season weeks played x \$20, plus \$200

Example - if player plays 20 weeks, then the payout is:

$2 \times 20 \text{ weeks} \times \$20 + \$200 = \1000

*If there are 10 teams the league will pay a cash award to the first and second place team in the regular season and the winner of the playoffs.
